

Tet' report January 2007

SWIMMING :- (westman) Brandon Bluefins are accommodating as part of their precompetitive program. Registration is \$14 and then sessions are \$45 per calendar month. So far we have 3 signed up with one more to start on Saturday. I need you to submit to me your 200m freestyle times for me to log and at least one competition time and I can help you arrange that. You can of course join any other swimclub such as Portage etc.

SHOOTING:- Winnipeg airgun club has welcomed us and we take lessons in Winnipeg on alternate Tuesdays. Membership is \$50 per year and is all inclusive so guns, targets pellets and instruction. The guns cannot leave the range. I need you to attend at least once per month and attend 4 of their monthly competitions also held in Winnipeg.

RUNNING:- (westman) running will begin the first week after spring break. Lessons will be in Brandon weekly providing there are sufficient runners, with a weekend cross-country time trial alternate weeks at different locations, Brandon hills for example. I will set up time trials for entry times both in westman and Birdhill park later in the year.

RIDING :- (westman) tetrathalon riding lessons will be held here at Pegasus during the summer holidays with the emphasis on horse swap so you are more than welcome but please expect your horse to be ridden by everyone else and you will ride theirs. We will use my cross-country jumps and course and stadium. As an owner you will give the rider a 20minute lesson on your horse so bring a lesson plan. More details will follow. You cannot attend with out your horse

show-jumping, its up to you to get instruction however I need a report from your coach that you are competing 2'9" comfortably

Cross-country, its up to you to get instruction however I need a report from your coach that you are competing 2'6" comfortably

I would like to see you on other horses at the shows too just in the low jumper, I do not mean unsuitable mounts just your barn mates horses, it's a great learning curve to try another and as an owner you learn by watching your own too.

I do not have confirmed tetrathalon competition dates at this time however there is talk of an all 5 sports training camp in Perth Ont. In July and an invite to the B.C. national Qualifiers in May/June. Horses provided at both. We are always welcome in Alberta where there are various lessons etc. around Canmore. There is no date for Sask' tet' yet.

I will as I said back in December be holding some 'come and try It' clinics this spring and in the summer 2 mini-meets and I hope a full tet in the fall.
