

Dressage Chair report 2008

Dressage continues to be very popular at camp, with 100% of the camp riders having a private dressage lesson in the enclosed ring provided by the 2008 camp committee.

The 2008 eastern dressage series was not as well attended as last year's but this is due to the fact that individual clubs are now providing regular dressage instruction to their members, rendering the series obsolete. I feel that I have attained my goal of making dressage lessons an important part of the pony clubbers' education.

Hopefully, next year, my focus can be put towards the West regions, if desired by the clubs.
