

West Valley Pony Club Branch Report

West Pony Club had a successful year last year with many of our members enjoying lots of activities, including Day Challenge and ABC Rally. Our members would like to thank everybody that volunteered their time to make these activities possible for our members. Although most of our members have enjoyed the recent break that we have had, they are also anxious to get started in our new year.

In our upcoming year, we are hoping to begin stable management sometime in January, our committees are beginning to be formed to develop our plans for; riding lessons, hosting a quiz, and camp. Our junior rep, Amber Ludington, did not return this year and is being replaced by Kari Brown. Our junior reps, Laura Jacquard and Kari Brown are anxious to become more involved this year. Consultation between the executive and members resulted in some changes to our stable management program, where we are going to be offering stable management in smaller groups where the older members will also be involved as well as our Coach Alex Beaton. We once again are fortunate to have Alex join us for another Pony Club year. We also implemented some suggestions from the regional meeting, having a mentor for some of our new members. We are excited to have new members this year and are looking forward to becoming active once again.
