

## Evergreen Pony Club Report

---

You may only be one person to the world  
But you may also be the world to one person... *or horse!*

The Evergreen Pony Club has gone through major transition since our inception in October of 2008. We are currently managing decreased member numbers, executive turn-over, general funding issues and a lack of available lesson horses.

Although obstacles have presented themselves to our club, we positively move forward; shifting around resources, and reorganizing allowing our club to continue. Evergreen Pony Club has started riding every Saturday (all members present); we plan on participating in external events when possible; and continue to educate our members to the full potential of Canadian Pony Club standards within our budgetary constraints.

Other news:

- We were fortunate to have an equine chiropractor teach us about her profession and show us a few critical pressure points as well as seeing her in action; starting a rehabilitation schedule with one great lesson horse!
- The entire club was present on a very cold day in February for a hands-on deworming clinic.
- We had a professional farrier come out to the barn to teach us about 'hoof health'.
- Unfortunately, none of our members were ready for quiz.
- We've been told that bookwork is boring....hmmm.
- The club has successfully completed a bottle drive...and plan on kick starting the summer with a pizza party.

In conclusion, Evergreen Pony Club is working through our transition and look forward to a great summer.

If this **motion (as noted below)** is on the floor on May 3, 3009, please consider my vote **by proxy** and record as **not in favour**.

Treasurer's Report:

I suggest we increase our Region fees by \$5.00 -10.00 for 2009-2010. This will help to offset the rising costs of the CPC calendars, facility rentals for events, travels costs of testing examiners, the cost of sending our Discipline chairs to National meetings, cost of sending our National Director to AGM & SAM & other meetings.
