**Ref: Equine Canada, Eventing Rules, Annex 7 – Table of Cross-country & Jumping Test Specifications; CPC Testing Procedures.*

This equivalency chart is shown on the basis of show jumping height because it is the more challenging component for the CPC test candidate for each level. In general, the height of XC fences for eventing are higher and the requirements are more rigorous than for CPC Testing levels for the equivalent stadium height. In general, viewed from a preparation basis... if a candidate is competing at the equivalent Eventing level for a particular test level based on stadium, they should also be well prepared for the rigors of the XC testing for that level.
