**SADDLE FITTING WITH
SADDLE MAKER CHRISTIAN LOWE OF
PARAMOUNT SADDLERY**

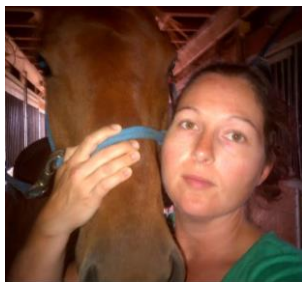

Why is it important to have a saddle that fits both the horse and the rider? Christian will discuss and demonstrate the key factors in how a saddle fits and what we should be looking for as riders to know we are using the best fitting equipment. He will also discuss some of the issues that can arise from poor fitting equipment.

Christian is an experienced rider with a passion for horses. He has worked closely with team vets, travelling to international shows and helping with the day to day management of elite eventers and their equine partners. This was the perfect foundation for his career as a saddle maker and fitter, and the basis for his philosophy. "saddles could and should fit better".

**EQUINE CHIROPRACTIC CARE
VETERINARY SPINAL MANIPULATIVE THERAPY IN
ANIMALS WITH DR. CHRISTINA MOHOS, WELLINGTON**

What is VSMT? How can it be used to benefit canines and equine? Join Dr. Christina Mohos of Wellington Equine Mobile Services, who will present a case study of VSMT and discuss the options available to equine and canine owners on how this alternative approach can work with your regular veterinary care to promote the health and wellbeing of your equine athlete. A case study will be presented along with demonstrations.

Dr. Christina Mohos graduated from the Ontario Veterinary College with distinction in 2007. She owns and operates her own Equine mobile veterinary clinic servicing the broader Wellington area. She has furthered her training and practical experience completing an Equine Chiropractic Program in 2016. Christina grew up in the Hillsburg area with horses and enjoys casual riding and hiking with her two quarter horse geldings and faithful canine companions Copper and Gizmo.
