Questions about Testing?

Please contact your branch Testing Rep.

RELAX! There has never been a reported case of the examiner biting a candidate

PRACTICE at home. It's nearly impossible to do something under test conditions and look competent if you're not used to doing it. Review the workbook that corresponds to your test level weekly so you are ready for the written test on a to be announced date. Whenever possible have a parent, sibling or friend review the workbook, stable management or riding details with you.

BE ON TIME or a little early.

PARENTS should not normally be at the test site except to bring the candidates and pick them up. Your branch Testing Rep or D.C. will be present during the testing. If parents MUST be on the site, they should stay well away from the candidates and examiner.

Candidates Should Bring:

- An ASTM/SEI approved helmet, boots with a heel and a safety vest for XC.
- You MUST have a properly completed Medical armband.
- The mount should be suitably groomed.
- Proper, safe, clean tack for the horse.
- Grooming kit appropriate for your test level, halter, leadshank.
- Suitable riding and stable clothing.
- For all test levels above D, bring your old certificate.
- Stable tools (manure fork, shovel, rake, etc) as required for test level.
- Sufficient clean bandages and cottons if bandaging is included in your test.
