

Section 6 Horsemasters Program for Adult Volunteers (Revised November 2015)

This will be a pilot project for 2015 and 2016. No Region or Branch will be required to participate. Canadian Pony Club develops young horse people in both riding and stable management skills. We develop character, loyalty and sportsmanship. We teach leadership, responsibility and the value of teamwork. All of this is developed through a program that teaches the care of horses and ponies, riding and mounted sports. Safety of the members and their horses and ponies is one of the prime considerations during all activities.

Canadian Pony Club is developing a program for Adult Volunteers who understand and support the aims and objectives of Pony Club. They will follow the Pony Club standards to learn more about riding and horse care, share their knowledge with the Active Members, and enjoy meeting and sharing time with like minded adults. As they develop their own skills, they will be encouraged to help with teaching the younger members and may also wish to become part of the examiners' list in their Region.

The Active Member must always be given priority where space or time may be limited.

1. Must be an Associate member of a CPC approved Branch.
